SUMMARY

Product Manager with 4+ years turning operational complexity into 0 → 1 systems and AI-driven products that move real numbers. Built PCMS 0 → 1 at Bajaj Finance for a ₹50,000 Cr+ deposit book and cut FD booking turnaround from 7 days to 1 (86% faster). Brings fintech-grade rigor on 0 → 1 execution, data-first decision-making, and a bias for simplifying complex processes into sustainable growth — not locked to one domain, having applied it across fintech, travel-tech, and AI products. Seeking Senior Product Manager roles.

Highlights: Built PCMS 0 → 1 for a ₹50,000 Cr+ deposit book • Shipped the FD Partner Onboarding App (30% sales-team efficiency gain) • Cut FD booking turnaround 7 days → 1 day (86% faster)

KEY SKILLS

Product Strategy • Roadmapping • Product Life Cycle Management • PRD & Requirements Writing • Cross-Functional Prioritization • Stakeholder Management • Partner & Vendor Onboarding • Agile / Scrum • Sprint Planning • SQL • Power BI • Salesforce CRM • Data-Informed Decisions • API & System Integration • Agentic AI / Claude Code • JIRA • Azure DevOps • Figma

EXPERIENCE

Product Manager — SmartSites, Mohali, India

Sep 2025 – May 2026

Digital Marketing, Design and Development

- Owned intake-to-delivery for 30+ concurrent design projects in a distributed team spanning India and the US, cross-verifying requirements with US-based PMs daily and directing a 40-person team across social, video, web, and branding work.
- Ran process syncs on AI adoption and workflow optimization, cutting average project turnaround from 10 days to 2 days.

Chief Digital Growth Officer — Leading Edge Info Solutions, Mohali, India (Contract)

Sep 2024 – Dec 2024

Digital Marketing, Design and Development

- Spearheaded a 10-person team shipping internal and client websites (incl. ecommerce) end-to-end; engineered AI-based templates for the Sales → Development handoff.
- Led training for 30+ employees across 20+ sessions, driving adoption of new tools and ways of working.

Unit Manager (Product Owner — Partner Platforms) — Bajaj Finserv, Pune, India

Apr 2022 – Apr 2024

Fintech

- Led the revamp of the Partner, Customer (Experia), and Partner-Onboarding portals — adoption 2% → 45% — and cut Fixed Deposit booking turnaround from 7 days to 1 day.
- Built the Payout Calculation Management System (PCMS) 0 → 1, integrating with Finacle via REST APIs to remove manual Excel dependency for a ₹50,000 Cr+ deposit book; drove a 30% gain in sales-team efficiency and cut fraud risk 20%. Recognized with the Heroes Award.

Domain Support Specialist — Ericsson, Noida, India

Jan 2021 – Apr 2022

Telecommunications

- Automated restoration, health-check, and backup processes (Python/Shell on Linux), cutting downtime from hours to minutes for 1,000+ users and improving network reliability by 15%.

SELECTED PROJECTS

Flight Booking Product Teardown (MakeMyTrip) — Funnel and requirements teardown with three personas, a journey/funnel map, RICE/MoSCoW-scored recommendations, and HEART success metrics and OKRs.

AI Trip Planner — PRD (“Wayfare AI”) — End-to-end PRD: goals/non-goals, prioritized P0–P2 requirements, user stories, a phased launch plan, and success metrics.

Flight Delay Prediction Dashboard — Interactive dashboard over 8,000 flights (modeled dataset) surfacing route, airline, season, and time-of-day delay patterns via heatmaps and KPI tiles.

EDUCATION

MBA, Business Analytics — Amity University, 2024–2026 (Correspondence)

B.Tech, Information Technology — Jaypee University of Information Technology, Solan, 2016–2020 (Full Time)
